
JOB DESCRIPTION

C++ ENGINEER

We are looking for a talented C++ Engineer to join our team in Lausanne, Switzerland. As a member of our team, you would be contributing to our core product SILO, a digital asset management solution designed for financial institutions. You would be working closely with blockchain experts, software engineers and hardware manufacturers. Your contribution would have a direct impact on the evolution of the cryptocurrency/fintech industry as we know it today.

Responsibilities

- Maintain and enhance the C++ codebase of our secure execution environment.
- Work on an essential part of the SILO product, and ensure it's reliable by writing comprehensive tests.
- Integrate new cryptocurrencies and security features.
- Further develop the hardware platforms that our products rely on

Desirable

- Experience in C++
- Good knowledge of applied cryptography,
- Familiarity with Agile frameworks and regression testing is a plus

Applications

Get in touch by sending your CV to jobs@metaco.com.

If your skill set doesn't fit perfectly within our requirements, please do not hesitate to apply.
