

JOB Description

Back End .Net Engineer – Lausanne

Who We Are

Based in Lausanne, METACO is the leading provider of security-critical infrastructure enabling financial institutions to enter the digital asset ecosystem. Trusted by top banks, exchanges and infrastructure providers globally, we strive to deliver best-in-class products and services that help our clients achieve customer and business success.

At METACO, we lay the foundations to transform the financial services industry by building the digital asset infrastructure that will revolutionize finance for generations to come.

We are looking for an experienced **Back End .Net Engineer** to join our team in Lausanne, Switzerland. As a member of our team, you would be contributing to the development of our platform, a digital asset management solution for banks. Working closely with blockchain experts, software engineers and hardware manufacturers, your contribution would have a direct impact on the evolution of the cryptocurrency/fintech industry as we know it today.

WHAT YOU WILL DO

RESPONSABILITIES & DUTIES

- Develop the back end and core APIs to support single-page web and system to system integration, while closely adhering to established coding, architecture, and security practices,
- Understand business needs and align technical solution proposal to the business needs,
- Build reusable, extensible, secure products and capabilities,
- Participate in technical design, technical requirements, and documentation for various initiatives as assigned, provide feedback based on your knowledge of client-side controls, patterns, and best practices,
- Help maintain coding guidelines, to ensure reusability, modularity, and efficiency,
- Work closely with the leads and stakeholders to prioritize and implement new application features, while simultaneously maintaining the quality of existing features and functionality,
- Participate in and contribute towards business design, business requirements, providing feasibility and effort estimates based on information available,
- Establish and maintain performance standards for APIs and API based integrations,
- Assist the leads in managing and grooming the product backlog, assigning points to backlog items to correctly establish velocity, and establishing sprint goals,
- Own the planning, completion, integration and quality of the code you produce,
- Stay up to date with technology, tools, design trends, and industry best practices to help evolve the brand and team skills.

WHAT WE ARE LOOKING FOR

QUALIFICATIONS & SKILLS

- Preferred 8++ years of development experience, including the following: object oriented, data types, methods, algorithms, generics, interfaces, delegates, inheritance, repetitions, classes, polymorphism, arrays, etc,
- Expertise in Microsoft development technologies, including: .NET Core, C#, Web API, MVC and Core,
- Deep understanding of data exchange formats and web technologies, including: XML, SOAP, JSON, HTML, CSS, JavaScript, REST, etc,
- You are comfortable with Agile development tools such as Gitlab
- Expert knowledge of source code control, debugging, performance monitoring, benchmarking, logging and testing tools,
- Your code is clean, efficient, and you strive for reusability in your designs,
- Strong customer orientation,
- Effective verbal and written communication skills,
- Ability to identify and resolve problems in a timely manner
- Fluent language skills in English.

Why METACO SA

We are a dynamic and fast-growing company, working together to tackle the most challenging problems at the intersection of distributed systems, cryptography, and finance. We provide an entrepreneurial culture, where merit, contribution and teamwork are rewarded. Our team is important to us, and we work hard to support both the personal and professional development of team members in a comfortable office environment (virus-permitting) and team-oriented atmosphere.

We understand that maintaining a good work-life balance is crucial to a healthy and happy workplace, that is why we provide flexible working policies for employees to fit their individual needs. Join us to make your mark on the transformation of the financial services industry.
