

# JOB Description

## Front End QA Engineer – Lausanne

### Who we are

Based in Lausanne, METACO is the leading provider of security-critical infrastructure enabling financial institutions to enter the digital asset ecosystem. Trusted by top banks, exchanges and infrastructure providers globally, we strive to deliver best-in-class products and services that help our clients achieve customer and business success.

At METACO, we lay the foundations to transform the financial services industry by building the digital asset infrastructure that will revolutionize finance for generations to come.

We are looking for an experienced **Front End Q/A Engineer** to join our team in Lausanne, Switzerland. As a member of our team, you would be contributing to the development of our platform, a digital asset management solution for banks. Working closely with blockchain experts, software engineers and hardware manufacturers, your contribution would have a direct impact on the evolution of the cryptocurrency/fintech industry as we know it today.

## WHAT YOU WILL DO

### RESPONSABILITIES & DUTIES

As a QA Engineer :

- You create robust tests to identify software problems,
- You analyze bugs and errors found in the test,
- You report the results of the test to the software development team,
- You define and recommend improvements to the software to enhance the user's experience.

As an Automation Engineer :

- You design test plans and automate test cases,
- You create frameworks and tools to initiate automation process.

## MAIN TECHNOS AND STACK

- Front: React, Typescript
- Mobile: React Native
- Infra: K8S
- Testing tools: Jest, Testrails, Cucubmber
- CI : Gitlab CI

## WHAT WE ARE LOOKING FOR

### QUALIFICATIONS & SKILLS

- You are service-minded and multi-tasking
- You are not afraid of transparency
- You are rigorous and detail focused
- You are pragmatic and result-oriented
- You are adaptable without denying your convictions
- You speak perfect English

### **Why METACO SA**

We are a dynamic and fast-growing company, working together to tackle the most challenging problems at the intersection of distributed systems, cryptography, and finance. We provide an entrepreneurial culture, where merit, contribution and teamwork are rewarded. Our team is important to us, and we work hard to support both the personal and professional development of team members in a comfortable office environment (virus-permitting) and team-oriented atmosphere. We understand that maintaining a good work-life balance is crucial to a healthy and happy workplace, that is why we provide flexible working policies for employees to fit their individual needs. Join us to make your mark on the transformation of the financial services industry.
