

JOB Description

Java Engineer – Lausanne

Who We Are

Based in Lausanne, METACO is the leading provider of security-critical infrastructure enabling financial institutions to enter the digital asset ecosystem. Trusted by top banks, exchanges and infrastructure providers globally, we strive to deliver best-in-class products and services that help our clients achieve customer and business success.

At METACO, we lay the foundations to transform the financial services industry by building the digital asset infrastructure that will revolutionize finance for generations to come.

We are looking for an experienced **Java Engineer** to join our team in Lausanne, Switzerland. As a member of our team, you would be contributing to the development of our platform, a digital asset management solution for banks. Working closely with blockchain experts, software engineers and hardware manufacturers, your contribution would have a direct impact on the evolution of the cryptocurrency/fintech industry as we know it today.

WHAT YOU WILL DO

RESPONSABILITIES & DUTIES

- Develop and maintain our Java SDK related to our platform.
- Assist in code peer reviews, build and test functional enhancements,
- Identify areas for code refactoring. Review and contribute to development process and procedures to assist in the continual improvement of the development team activities,
- Strong organization, communication, and interpersonal skills,
- Responsible for fullstack development of Java and Typescript code to meet specifications and designs and using best practices. Development of a world-class web services code-base,
- Effort estimation and task breakdown - estimating cost of implementing new changes and identifying risk.

WHAT WE ARE LOOKING FOR

QUALIFICATIONS & SKILLS

- 5+ years development experience
- Java

Backend experience :

- Java 8+,
- Messaging (JMS/Kafka/RabbitMq) is desirable

DevOps experience :

- Linux, Bash,
- Docker, Kubernetes is a plus,

Why METACO SA

We are a dynamic and fast-growing company, working together to tackle the most challenging problems at the intersection of distributed systems, cryptography, and finance. We provide an entrepreneurial culture, where merit, contribution and teamwork are rewarded. Our team is important to us, and we work hard to support both the personal and professional development of team members in a comfortable office environment (virus-permitting) and team-oriented atmosphere.

We understand that maintaining a good work-life balance is crucial to a healthy and happy workplace, that is why we provide flexible working policies for employees to fit their individual needs. Join us to make your mark on the transformation of the financial services industry.
