

JOB Description

Senior Scala Developer – Lausanne

Who We Are

Based in Lausanne, METACO is the leading provider of security-critical infrastructure enabling financial institutions to enter the digital asset ecosystem. Trusted by top banks, exchanges and infrastructure providers globally, we strive to deliver best-in-class products and services that help our clients achieve customer and business success.

At METACO, we lay the foundations to transform the financial services industry by building the digital asset infrastructure that will revolutionize finance for generations to come.

We are looking for a talented **Senior Scala Developer** to join our team in Lausanne, Switzerland. As a member of our team, you would be contributing to the development of our platform, a digital asset management solution for banks. Working closely with blockchain experts, software engineers and hardware manufacturers, your contribution would have a direct impact on the evolution of the cryptocurrency/fintech industry as we know it today.

YOU WILL NEED TO

- Be proactive, pragmatic and professional, deliver results,
- Write code that make our games and related functionality run,
- Write unit and other automated tests,
- Work and communicate efficiently with the rest of the development team, including PO, front-end developers and designers,
- Actively participate in code reviews so that code delivered by you and your team is of great quality,
- Own your applications, ensure they deploy and run 24/7 on our Kubernetes platform with great performance,
- Be ready to invest the effort to become an even better developer.
-

TO SUCCEED IN THIS ROLE YOU SHOULD HAVE

- Passion for our profession, in particular Scala and Functional Programming, and improving yourself technically,
- Proven experience in delivering production software using Scala or comparable experience, such as extensive JVM or Haskell experience,
- Interest in the latest programming trends such as functional and reactive programming,
- Excellent communication skills and a pragmatic approach to problem solving,
- Highly proficient in spoken and written English,
- Bachelor's Degree in IT or equivalent.

WE WILL APPRECIATE

- Experience building high performance clustered systems, modular FP-based architecture, as well as actor systems, where they are necessary;
- Experience in Cats / Scalaz, Cats Effect, ZIO, Monix, Akka Actors, Persistence, Cluster & HTTP, http4s, Tagless Final and/or Scala.js.
- Experience with Event Sourcing & CQRS;
- Experience with Docker, Kubernetes, Kafka, Cassandra.

Why METACO SA

We are a dynamic and fast-growing company, working together to tackle the most challenging problems at the intersection of distributed systems, cryptography, and finance. We provide an entrepreneurial culture, where merit, contribution and teamwork are rewarded. Our team is important to us, and we work hard to support both the personal and professional development of team members in a comfortable office environment (virus-permitting) and team-oriented atmosphere.

We understand that maintaining a good work-life balance is crucial to a healthy and happy workplace, that is why we provide flexible working policies for employees to fit their individual needs. Join us to make your mark on the transformation of the financial services industry.
